Thank you Ralph,

In addition to EPA's suggested clarification, please find in the attached a couple of additional suggested changes to the letter from NDEP.

I think it is important to draw a distinction between federal funding for the Arimetco portion of the site as opposed to the entire site, and to separate existing groundwater contamination issues from the Arimetco portion of the site.

Greg

Thanks Ralph for sharing the letter. One clarification: Today, we proposed the site for NPL listing but the actual listing will occur next March 2017. You may want to change the first sentence on the last paragraph, "The agencies expect the listing of the Site to occur before the end of the month."
Thanks. Angeles
